USA

RE: Letter of Invitation:

Dear Dr. Fernandez:

The Ministry of Health and Social Welfare present its compliments and writes to acknowledged with thanks your deep and honest desire to come and help the government of Liberia through the Ministry of Health at a time when your assistance and involvement in this fight cannot be overemphasized. However, based on our conversation over the last few days, let me not fail to say that this Ebola Virus Disease (EVD) is out of control; it could potentially depopulate huge sections of our country and for this we request your involvement.

Meanwhile, the Ministry of Health is pleased to extend this invitation to **GlobalMed**. The matter is urgent and need your help and timely arrival to assist along with your team of medical doctors with the expertise, training of staffs and experimental treatment of the blood affected by patients with Ebola Virus Disease (EVD). I must repeat, the matter is most urgent to save lives.

Thank you for kind assistance to the health delivery system of Liberia.

Best regards.

Sincerely yours,

Bernice T. Dahn, MD, MPH
Deputy Minister for Health Services/ Chief Medical Officer-RL
